Then the country was overrun by mounted men, most of them deserters from the Southern army, who lived by pillage. There was no law, no security, scarcely any industry. Ten years' time has changed all this. The white population is orderly and, on the whole, industrious. The condition of the negro has wholly changed. In 1865 no negro of that vicinity owned any animal larger than a chicken. Furniture vicinity owned any animal larger than a chicken. Furniture was an almost un-known luxury in the cabins of the blacks. Clothing was an ingenious combination of cast-off army garments, eked out with shreds and patches of "butternut." The negroes are now quite well clothed. They are great buyers of furniture. Most of them, according to this writer, have a horse or a cow. Then they did not know their alphabet. Confederates in the Next Congress.

[From the New York Sun.]
Some of the Grant organs affect to be terribly alarmed because so many Confederate generals have been elected to the next Congress. We regard this, on the contrary, as an excellent sign; for as a rule those men who ranked highest in the Confederate service were the best representatives of the intelligence of their party in the second my States, and we know that their own prosperity, as well as that of the North, depends upon the complete restor-ation of harmonious relations between the to join in a common decoration of the graves of soldiers who had belonged to the two armies. Equally earnest expressions of a patriotic desire for a complete obliteration of sectional hatreds are to be found in a letter from Fitzhugh Lee, another Confederate General, which has just been published; and these are the sentiments generally prevailing among those who were leaders on the Southern side during the late war. Last season I had a pretty arrangment in my front yard which was admired. When the winter's wood was hauled to the house, there was some hollow logs amongst it. These were sawed off about eighteen inches long, the decayed wood from the inside was scraped out, then fill-ed with rich earth and manure; in the cen-ter I had a rose bush, and next, moss pinks; on the outer edge I set slips of vy, and Wandering Jew; in one I raised some sweet peas. ders and prevents the heart's action. Hospital reports show that a large percentage of deaths of malers
and shoemakers are souden and early, and in almost
every case a post morrom examination reveals some
disease of the heart which had its origin in the storoing position of these mechanics while at work. M:
Birat states in his hospital reports that workmen
whose business requires a constantly stooping position
are subject to headache, disziness, apoplexy, palsy,
and sudden death from heart diseases.

Dr. J. Walker's California vinegar Bitters are a purely Vegetable preparation, made chiefly from the naive herbs found on the lower ranges of the Sierra Nevada mountains of Califorhia, the medicinal properties or which are extracted therefrom without the use of Alcohol. The question is almost daily asked, "What is the cause of the unparalleled success of VINEGAR BIT-TERS?" Our answer is, that they remove the cause of disease, and the patient recovers his health. They are the great blood purifier and a life-giving principle, a perfect Renovator and Invigorator of the system. Never before in the mistery of the world has a medicine been compounded possessing the remarkable qualities of VINEGAR BITTERS L. sealing the sick of every disease man is heir to. They are a gentle Purgative as well as a Tor of relieving Congestion or Inflammation of the Liver and Visceral Organs, in Bilious
